

# How to Accelerate Business Process Transformation in Banking

The banking industry is going through unprecedented change. 87% of banks believe that transformation is a strategic challenge for their business. Customers are demanding instant, personalized, digital experiences while there is increased regulation and expectation in data privacy. What are the world's leading banks doing to speed up innovation?

## Agile, Engaging, and Connected Banking Solutions

Bizagi creates the power to ignite transformation by delivering rapid process automation across the enterprise. Our digital business platform wraps around existing IT systems, giving banks the agility and process orchestration required to compete in the digital economy.

### We have delivered transformation across:

#### Customer Experience

Create a single view of the customer to become more responsive and earn their loyalty.

#### Process Improvement

Stand still and be left behind. Continuous improvement is needed to become a transformational bank.

#### Regulation & Compliance

An agile process layer provides operational productivity, agility and control to help meet compliance commitments.
