

TELSTRA CLOUD COLLABORATION

ENABLING BETTER BUSINESS OUTCOMES

Powerful and flexible cloud collaboration solutions

Organisations are constantly being challenged to keep up with rapid changes in business. To be successful, they increasingly need to drive workspace transformation to become more agile, productive and innovative. These growing demands for agile workforces, flexible businesses process and efficient working require secure and on-demand collaboration.

Telstra Cloud Collaboration helps you to create flexible working environments for better business outcomes. It offers a portfolio of unified communications solutions that lets you securely access real-time collaboration and conferencing applications from the Telstra cloud globally. Our Cloud Collaboration Cisco Powered, Skype for Business and Telstra IP Telephony solutions deliver rich voice, video, presence and IP communications tools across multiple devices – with fast, reliable access and a consistent user experience.

With Telstra Cloud Collaboration, you can rely on our unique skills, advanced collaboration technologies, network strength and vast experience in designing, deploying and managing cloud collaboration solutions. In addition, we provide professional consultancy services to tailor a solution to your specific requirements. This enables you to focus on your core business and helps to improve performance, reduce technology risks, internal costs and management complexity.

The Cloud Collaboration solution

HOW CLOUD COLLABORATION CAN BENEFIT YOUR BUSINESS

Flexibility

Cloud Collaboration enables you to choose features and functions from multiple user packages and scale dynamically to suit your organisation's needs.

What's more, you can enjoy the convenience of predictable usage-based pricing with minimal upfront investment.

Agility

Support faster decision-making that can potentially increase your organisation's speed to market and profitability.

Our solution empowers your workforce to adopt more innovative work practices, connect in real-time, from any compatible device, and almost any location globally.

Responsiveness

Exploit new business models to potentially improve productivity, staff engagement and customer experience. Delivered from the secure Telstra cloud, Cloud Collaboration provides a consistent and intuitive user experience enabling faster responses, by leveraging our reliable and globally connected networks, commitment to the highest end-to-end service level assurance, and our long-term experience in managing collaboration solutions.

The Telstra Advantage

As Australia's leading cloud collaboration provider, we combine best-of-breed cloud collaboration platforms with global reach, network security, expert management and platform interoperability.

A breadth of solutions

We provide a dedicated team of expert consultants with an unrivalled proficiency designing and deploying end-to-end collaboration solutions including video, contact centres and enterprise telephony.

With a wide choice of technologies, devices and vendors, we can tailor a solution to suit your specific business needs.

Network reach and reliability

With the Telstra Next IP® network, Telstra Mobile Network and our global IP networks, we offer a powerful, highly secure platform for connecting people and organisations to help ensure peak performance for your collaboration services at all times.

In addition, we are continually expanding our cloud collaboration service globally, which is already being delivered across four continents and twenty-five countries.

Vast experience and a trusted advisor

We have extensive experience in successfully delivering cloud collaboration solutions, with over 250,000 endpoints deployed in the last 10 years. We are recognised by the industry and vendors and hold multiple domestic and global industry awards as well as accreditations. However, we are more than just a technology provider. Organisations large and small trust us as their expert partner to build innovative end-to-end solutions to drive business transformation spanning people, workplaces and technology.

About Telstra

We provide network services and solutions to more than 200 of the world's top 500 companies. They rely on us to do business across 240 countries and territories and to enable greater productivity, efficiency and growth.

Our solutions offer the best of all worlds – skilled people and a rich portfolio of services delivered on our world-class Telstra Next IP® network and Telstra Mobile Network. To ensure reliable performance, they're monitored and maintained from our dedicated centres using advanced management and operational systems. And they're backed by Telstra Enterprise-grade Customer Service® and one of Australia's largest and most qualified field and technical workforce.
